12. Integer to Roman

- does not start with 4 or 9, subtract higher value
- if it starts with 4 or 9 is subtractive values
- power of 10 can only appear 3 times else use subtractive form

3749 size = 4

$3 \cdot 10^{size-1} = 3 \cdot 1000$

= MMM

size -- size = 3

$7 \cdot 10^{size-1} = 7 \cdot 100$

= DCC

size -- size = 2

$4 \cdot 10^{size-1} = 4 \cdot 10$

= IL

Network Solution

1500 / 1000 = 1.5

1500 % 1000 = 500 that how many M

number go down the hat

add

I	V	I	X	L	X	C	D	C	M
4	5	1	10	50	10	100	500	100	900

MMM
